#### A Church School Without Its Own Church Paper

A church school without its own church paper—this is the situation at Wartburg. Our library is well-equipped in almost every respect, and admirably fills the needs of the students, but there is one very important omission. The Lutheran Standard, the official organ of the American Lutheran church, is not included on its subscription list.

Students have shown their interest by making numerous inquiries for the church paper, but no current issues are available.

#### Convocation Attendance

Convocation Attendance
During the first routh of this school year, attendance at the day to encounted the this school was a very commendable. Rowers, the day to encounted the things of the school was a superior of the school was a superior of the school was to the school with a school was to the school was to a subject of the school was not subject to the scho

sact.
School officials, having noticed the recent drop in convoca-tion attendance, have amounced that they will introduce a compulsory system if the present situation continues. We feel that this will be neither desirable nor necessary. Each student should realize his duty, and use the opportunities oftened him at the daily convocations.
